## The words of encouragement

ALEXANDER ŠOSTAKS

---

Dear editors, authors and readers of the new journal devoted to the research in the field of pure and applied mathematics in the context of fuzzy sets and systems!

I congratulate you with the launch of the first issue of Annals of Fuzzy Mathematics and Informatics and wish the Journal long life and to become, in near future, among the highly ranked journals in the field, being prominent for publishing decidedly qualitative papers.

ALEXANDER ŠOSTAKS ([sostaks@lanet.lv](mailto:sostaks@lanet.lv)) – University of Latvia, Latvia
