

Contents

Characterizations of semirings by their anti fuzzy ideals MUHAMMAD SHABIR, SUMAYYA SHAH, MUHAMMAD SARWAR KAMRAN	227–244
Medical diagnosis via interval valued intuitionistic fuzzy sets MOHAMMED M. KHALAF	245–249
Kleene’s fuzzy similarity and measure of similarity ISMAT BEG, SAMINA ASHRAF	251–261
On convergence of inclined-valued fuzzy bidirectional associative memory neural networks with thresholds GUIYING CHEN	263–269
Finite dimensional fuzzy normed linear spaces T. BAG, S. K. SAMANTA	271–283
The generalized Hyers-Ulam-Rassias stability of a quadratic functional equation in fuzzy Banach spaces T. K. SAMANTA, PRATAP MONDAL, NABIN CHANDRA KAYAL	285–294
Soft linear operators in soft normed linear spaces SUJOY DAS, S. K. SAMANTA	295–314
On intuitionistic fuzzy semi- α -irresolute functions V. SEENIVASAN, R. RENUKA	315–323
Somewhat fuzzy α - $\mathcal{I}$ -continuous functions E. HATIR, N. RAJESH	325–330
Somewhat fuzzy faintly pre- $\mathcal{I}$ -continuous functions N. GOWRISANKAR, N. RAJESH	331–337
A study on fuzzy soft set and its operations ABDUL REHMAN, SALEEM ABDULLAH, MUHAMMAD ASLAM, MUHAMMAD S. KAMRAN	339–362
Domination in interval-valued fuzzy graphs PRADIP DEBNATH	363–370
Linear equations of generalised triangular fuzzy numbers RITUPARNA CHUTIA, SUPAHI MAHANTA, D. DATTA	371–376

Fuzzy real inner product space and its properties S. MUKHERJEE, T. BAG	377–389
General fuzzy soft groups and fuzzy normal soft groups YINGYING LIU, XIAOLONG XIN	391–400
Contrast removal fuzzy operator in image processing (MRS) SHARMISTHA BHATTACHARYA (HALDER), MD. ATIKUL ISLAM	401–413
Decision-making approach with entropy weight based on intuitionistic fuzzy soft set YONG WEI YANG, TING QIAN	415–424
An introduction to open and closed sets on fuzzy soft topological spaces SANJAY ROY, T. K. SAMANTA	425–431
A method to obtain fuzzy Pareto set of fuzzy multi-criteria quadratic programming problems DEBDAS GHOSH, DEBJANI CHAKRABORTY	433–446
Inverse fuzzy automata and inverse fuzzy languages PAMY SEBASTIAN, T. P. JOHNSON	447–453
