

Contents

<i>n</i> pn-soft sets theory and their applications IRFAN DELI	847–862
A study of prime ideals of Γ –semiring generated by a translational invariant fuzzy subset and an element M. MURALI KRISHNA RAO, B. VENKATESWARLU	863–874
Fuzzy I_w –closed sets ANITA SINGH BANAFAR, S. S. THAKUR, SHAILENDRA SINGH THAKUR	875–882
Urysohn’s lemma and Tietze’s extension theorem in soft topology SANKAR MONDAL, MOUMITA CHINEY, S. K. SAMANTA	883–894
Generalized smooth proximity spaces OSAMA TANTAWY, SOBHY EL-SHEIKH, RASHA MAJEED	895–904
On fuzzy Baire spaces and fuzzy semi-closed sets G. THANGARAJ, R. PALANI	905–912
Weakly generalized connectedness in intuitionistic fuzzy topological spaces R. KRISHNA MOORTHY, P. RAJARAJESWARI	913–920
On intuitionistic fuzzy contra λ -closed mappings P. RAJARAJESWARI, G. BAGYALAKSHMI	921–928
Fuzzy setting of residuated multilattices L. N. MAFFEU NZODA, B. B. N. KOGUEP, C. LELE, L. KQUIDA	929–948
On the class of weakly fuzzy countably compact spaces B M UZZAL AFSAN	949–958
Fuzzy crossed product algebras PATRIK NYSTEDT	959–969
On soft open and closed mapping B. SURENDRANATH REDDY, SAYYED JALIL	971–978
Connected domination in fuzzy graphs using strong arcs O. T. MANJUSHA, M. S. SUNITHA	979–994
Supra semi*generalized closed soft sets A. M. ABD EL-LATIF	995–1004
